Subject: RE: Inquiry

Good Day..... [BC lawyer's name],

I want to thank you for taking time in following up with our request. Our company purchased steel materials from Tri-Metal Fabricators which you already know is our debtor. We carried out an inspection on the materials before making payment and arrangements on shipping. After the first inspection was done we agreed to pay them the full amount which was stated on the sales contract. On the day of sailing we carried out a final inspection and discovered that the materials on board was not the same we had inspected previously, on that note we cancelled our order and requested for our funds. They promised to return the funds two weeks from the day of cancellation which was 20th of January 2014. We feel if we do not take quick action on this matter we might be on the risk of loosing \$750,000.00 USD.

Please kindly send us your engagement letter.

Sincerely,

Alvey Stevenson.
