Businesses Engaged with or hiring Investigators

Engaging with a Private Investigator

EWPI

Designed to highlight and demystify the capabilities of a Professional Investigator. Content is client focused toward Insurance Companies, Associations, TPA's, Case or Claims Managers, Independent Adjusters, Paralegals, Lawyers, SIU, Corporate Investigators & Security as well as Public and Private Corporations.

The course or session, will detail and outline in general what should be expected when hiring an investigator and engaging with an Investigative firm. What is a modern Professional Investigator, why is experience, equipment and training the determining factors in the success of any investigation. How has the Investigative Industry changed and how are things evolving. The course or session will also highlight some industry standards and optimal engagement processes or protocols with investigative companies, best practices for engagement, standards, KPI's, SOP's and expected outcomes.
